

Lead Adventure Camp Instructor (Ages 8-10)

About the New Canaan Nature Center and Adventure Camp

The New Canaan Nature Center (NCNC) is a 501(c)3 not-for-profit environmental education center and sanctuary dedicated to helping people of all ages better understand, appreciate and care for the world of nature. Located a short distance north of New York City, NCNC encompasses a 40-acre preserve in the heart of New Canaan, CT that features diverse habitats including wet and dry meadows and woodlands, two ponds, dense thickets, an old orchard and a cattail marsh. Two miles of trails meander across the site. Through a diverse range of programs for schools, youth, adults, and families, the NCNC strives to create a deeper understanding and concern for the natural world through programs and exhibits that stress enjoyable and active, hands-on learning. It is our belief that personal awareness and involvement will enable citizens to make intelligent decisions relating to the future of our environment.

Our Adventure Camp programs provide campers, Ages 8-14, with an amazing opportunity to gain a greater appreciation for the natural world through guided exploration, high adventure outdoor activities, and overnight camping experiences. Each day campers are challenged as they journey through a world of self-discovery and personal growth. Through shared experiences and knowledge gained, Adventurers will create memories and strong, lasting bonds with other campers that they will carry with them for the rest of their lives.

Much like the traditional craft and trade guilds of yore, Adventure Camp is structured with a design that allows each camper to develop her/his outdoor nature craft and hone his/her camping and adventure skill set from year to year. Adventurers begin with daytime excursions into the wilds of the Nature Center and how-to practice sessions regarding camping and outdoor equipment. As they work their way up, campers learn valuable wilderness and adventure skills and get to put their knowledge to practice with offsite field trips and a weekly campout. Over time, the Apprentice Adventurer becomes the Master as the fundamentals needed for safe adventures in the outdoors are put to the test during multiple-day expeditions in the wild.
